Skills Over MCP turns any public GitHub repo of SKILL.md files into a live MCP server. This page is the share link for [Imbad0202/academic-research-skills](#) — hand it to a teammate and they can paste the MCP URL into Claude Code, Cursor, or Codex in seconds.

Don't have a skills repo yet? [Use the template](#) — fork it, push your own SKILL.md files, and you'll have a stable MCP URL of your own.
